Cross Browser Compatibility  
Project Management

### PROFILE

I am Denis Omingo, a seasoned Full Stack Web Developer adept in the intricacies of MERN, PERN, PHP, HTML, JavaScript, and WordPress. My expertise lies in crafting websites that seamlessly blend design principles, functionality, and optimal user experiences. Committed to remaining at the forefront of modern technologies, I consistently bring a fresh perspective to stay in line with contemporary trends. Elevate your digital aspirations with the expertise of Denis Omingo—a professional who transforms code into a symphony of excellence.

### WORK EXPERIENCE

#### Wordpress Developer

Brix Solutions

October 2023 to Date

1. **Woocommerce Integration:** Integrated and configured WooCommerce to enable e-commerce functionality on WordPress websites. Customized and optimized product pages, shopping carts, and checkout processes using WooCommerce and Elementor.
2. **Performance Optimization:** Optimized website performance by implementing best practices for speed, and asset optimization. Conducted regular performance audits and implemented improvements as necessary.
3. **Content management:** Ensured content is displayed correctly and consistently across the website.

#### Web Developer Mentee

Eleli Africa

June 2023-October 2023

1. **Expertise in React Redux:**
  - Mastering React Redux, aiding in the improvement of their comprehension of state management and the creation of efficient, scalable web applications.
2. **Proficiency in MERN Stack:**
  - Assisted colleagues in navigating the complexities of the MERN stack, supporting them in seamlessly integrating MongoDB, Express.js, React, and Node.js for robust full-stack development.
3. **Database Proficiency in MongoDB, MySQL, PostgreSQL, and Firebase:**
  - Facilitated a comprehensive learning experience on database technologies, covering MongoDB for NoSQL, MySQL and PostgreSQL for relational databases, and Firebase for real-time data synchronization.

-----

## EDUCATION

**BSc. Mathematics and Computer Science**  
**Multimedia University of Kenya**

2018-2022  
Graduated with second Class Honors  
Lower Division

**Kenya Certificate of Secondary  
Education**

**Moi High School Gesusu**  
2014-2017  
Scored a mean grade of B Plain

-----

## LANGUAGES

English   
Swahili

- 4. Hands-on Project Development:
  - Participated in the successful completion of practical projects, applying knowledge in real-world scenarios, and honing their skills in building feature-rich web applications.
- 5. Problem-Solving in Web Development:
  - Acquired guidance on complex problem-solving within web development projects, fostering a problem-solving mindset among fellow mentees.
- 6. Best Practices in Coding and Design:
  - Instilled best coding practices and design principles, ensuring that I produce clean, maintainable code and design user-friendly interfaces.
- 7. Application of Agile Methodologies:
  - Introduced to Agile methodologies, enhancing their ability to work collaboratively, iterate quickly, and deliver high-quality products in a dynamic development environment.
- 8. Firebase Integration:
  - Integrated Firebase into web applications, showcasing the advantages of cloud-based solutions for authentication, real-time databases, and hosting.
- 9. Version Control with Git:
  - Instructed by mentors in version control using Git, emphasizing collaborative coding, branching strategies, and repository management.
- 10. Continuous Learning and Adaptability:
  - Developed a culture of continuous learning and adaptability, and stayed abreast of evolving technologies in the ever-changing landscape of web development.

**Web Developer Attatchee**  
**Webtech Solutions** August 2022-February 2023

- 1. WordPress Development Excellence:
  - Spearheaded the development of dynamic and visually engaging WordPress websites, consistently meeting or exceeding client expectations.
- 2. SEO Optimization Leadership:
  - Implemented effective SEO strategies, resulting in a significant increase in website traffic and improved search engine rankings for client websites.
- 3. Editing and Proofreading Expertise:
  - Elevated the quality of web content by implementing rigorous editing and proofreading processes, maintaining high standards of accuracy and professionalism.
- 4. Performance Optimization:
  - Enhanced website performance through optimization techniques, resulting in faster loading times and improved overall site responsiveness.
