- Elementor
- SEO

## SOFTWARE DEVELOPER INTERN

### Eleli Africa

*December 2022-August 2023*

- **Role:** Learned from senior developers and continuously improved my skills in MERN stack development and WooCommerce.

### Responsibilities

- Conducted code reviews and provided feedback to mentees.
- Developed and maintained web applications using Wordpress, React, Node.js, and Next.js.
- Assisted in the architecture and development of new features and functionalities.
- Facilitated workshops and training sessions on modern web development practices.
- Collaborated with team members to troubleshoot and resolve technical issues.

### Achievements

- Mentorship in Frontend Development: Received valuable mentorship in frontend development, which significantly enhanced my technical skills and understanding of best practices.
- Contributed to the Organization's Website Development: As a frontend web developer, I actively participated in developing the organization's website, applying my skills in HTML, CSS, and JavaScript to create a user-friendly and visually appealing interface.
